DIVAN BASE OPTIONS

SUPERSTORAGE™

- Our SuperStorage™ divan bases provide the ultimate storage solution. Simply lift up the top of the divan, which is hinged to the base, allowing you to use the entire divan base for storage.
- Hydraulic springs make it easy to lift up, even with the mattress in place, which provides an excellent solution for smaller bedrooms, as you do not need to allow room to pull out drawers.
- We recommend a maximum load weight of 44kg per unit (88kg if two are linked together).
- Available as 90cm, 135cm, 150cm or 180cm divan bases only.

SUSTAINABLE DESIGN

We are proud of our commitment to sustainable design and manufacture and consider ourselves pioneers of our industry. We were the world's first carbon neutral bedmaker back in 2011, and everything we produce is 100% recyclable so it need not go to landfill.

We are committed to using 100% sustainable materials of the highest quality, using ethically sourced and certified fillings in our mattresses whilst the timber in our beautifully upholstered divans is sourced from managed forests that comply with the Forest Stewardship Council® (FSC®) and The Programme for the Endorsement of Forest Certification (PEFC™).

In fact we have gone the extra mile when it comes to transparency with our factories also achieving FSC® and PEFC™ multi-site certification. This guarantees full traceability and that our timber have been independently checked at every stage of processing, ensuring they comply with the highest environmental standards.
