Specification

- This supportive mattress features a ReActive™ 9-turn pocket spring system. Each spring independently senses your shape and weight distribution to provide total spinal and body support.
- Generously upholstered with naturally soft and breathable layers of cashmere, wool, cotton and Solotex™, which help regulate body temperature.
- Covered with a cocona-infused Belgian damask to provide a soft, fresh and hygienic sleeping surface.
- Tailored with three rows of hand side-stitching for edge-to-edge support, and hand tufted for long lasting comfort.

The mattress is matched with a platform top divan, to provide an extra-supportive firmer feel.

Design your bed

- Choose a firm or extra firm mattress comfort level.
